Knowledge, Skills, Abilities and Competencies Measured

Professional Potential: This is a measure of the tendency to have potential for professional success across industry type and functional area. This is characterized by scores that are derived from responses to questions regarding academic and social background, and aspirations concerning work.

Achievement: This component measures the tendency to set and accomplish challenging goals, while persisting in the face of significant obstacles. This trait is characterized by: working hard; taking satisfaction and pride in producing high quality work; and being competitive.

Responsibility: This trait is a measure of a person's responsibility for their own actions and a commitment to performing assigned tasks. This trait is characterized by: reliability; proactive involvement in work; and a dedication to complete even the most mundane tasks.

Maintains Good Working Relationships: This measures the extent to which the candidate puts effort into developing good relationships with others.

Analyzes Information: This measures the extent to which the candidate identifies key factors and integrates information to understand data or situations.

Learns Quickly: This measures the extent to which the candidate picks up new information and techniques easily.

Generates New Ideas: This measures the extent to which the candidate creates innovative approaches.

Uses Time Efficiently: This measures the extent to which the candidate manages own time and delivers work on schedule.

Works to High Quality Standards: This measures the extent to which the candidate completes every task with a high degree of quality.

Adapts to Change: This measures the extent to which the candidate accepts and adapts to changes without difficulty.

Copes with Setbacks and Criticism: This measures the extent to which the candidate stays positive when facing difficulties and does not dwell on negative events.
