Score Interpretation

- **Evaluators' score:** Refers to human evaluators rating the candidate on a numeric scale (for example 1-5) from which an overall score is generated.
- **AI-based evaluation (#/100):** Scores generated by artificial intelligence are shown as ratings on a scale of 1-100.
- **Comparison score (percentile):** A score that's been compared against a group of other candidates (also known as a normed score). For example, a candidate in the 60th percentile has scored better than 60% of the people in the comparison group.
- **Absolute score (#/100):** A score based on the number of correct responses. For example, a score of 60/100 means the candidate answered 60% of the questions correctly.

The color coding in this report is as given below:
