

# SHL Verify Interactive – G+

## Assessment Fact Sheet

### Overview

The Verify Interactive suite of assessments, including G+, is a set of assessments designed using mobile-first technology. These assessments offer an interactive, business-relevant approach to predict workplace performance using engaging, activity-based assessment design that can be deployed on any device type, including mobile phones.

SHL Verify Interactive G+ is a test of general cognitive ability that also generates accurate assessments of three specific abilities: Deductive Reasoning, Inductive Reasoning, and Numerical Reasoning.

The Verify Interactive – G+ test utilizes computer adaptive technology, offering the following benefits:

- Shorter testing administration times
- Ability to offer the test in an unsupervised setting
- A more precise score
